**Adventure Tourism Company Provides
Off-Road Tour Experience Featuring TOMCAR® Vehicles**

Rochester Hills, MI – Tourists in Cabo San Lucas and Puerto Vallarta, Mexico can now enjoy the thrill of adventure that only a TOMCAR vehicle can provide. Green Zebra Adventures, a U.S. based tourism company, recently began operating a revolutionary new off-road adventure tour experience in these markets featuring the exclusive Green Zebra TOMCAR.

Green Zebra is partnering with tour management operators at these destinations to offer resort guests and cruise ship passengers half-day and full-day vehicle guided tours. TOMCAR was selected as the cornerstone of Green Zebra's operations because of its safety, reliability, versatility, ease of maintenance, and ability to tackle any terrain.

"We're honored that Green Zebra Adventures has selected the TOMCAR line of vehicles for their fleet," said Matt McAlear, Vice President of Global Sales and Marketing. "It's the perfect vehicle for Green Zebra guests to 'earn their stripes' and take part in an off-road adventure that they will never forget. We look forward to delivering even more Green Zebra TOMCARs to exotic locations across the globe."

TOMCAR Ltd., whose global headquarters is located in Rochester Hills, is the developer and manufacturer of the revolutionary high-performance, ready-for-anything TOMCAR® vehicles.

The state-of-the-art TOMCAR vehicle aligns with Green Zebra's commitment to guest safety, comfort and overall experience.

"Green Zebra Adventures offers guests access to the TOMCAR, along with professional guides and carefully designed tours to give maximum thrills with the highest-rated safety vehicle in its class," said Andrew Meltz, Green Zebra founder.
