**New TOMCAR® Vice President to Focus on Increasing Awareness  
of TOMCAR Vehicles Among Law Enforcement and Military**

**Rochester Hills, MI** – TOMCAR has named Mike Fullerton the new Vice President of Law Enforcement, Military and Government Affairs. Fullerton will be based in Washington, D.C.

TOMCAR Ltd., whose global headquarters is located in Rochester Hills, is the developer and manufacturer of the revolutionary high-performance, ready-for-anything TOMCAR® vehicles.

In his new role, Fullerton will work to further position TOMCAR vehicles as powerful tools that can handle the most challenging tasks and the roughest terrain to law enforcement agencies and militaries around the world.

Prior to joining TOMCAR, Fullerton was with the U.S. Department of Homeland Security for almost four years, his final year spent establishing the congressionally mandated Office for State and Local Law Enforcement. His background provides him with a clear understanding of the challenges and needs that law enforcement and government agencies face today.

“My focus is to look for international, federal, state and local opportunities to demonstrate why TOMCAR vehicles are the best option for law enforcement, government agencies, fire departments, border agencies and the military,” Fullerton said. “The key is giving people an opportunity to experience our vehicles. Once people drive it, they immediately understand the benefits of a TOMCAR over alternative vehicles and begin to vision how the TOMCAR can meet their individual needs.”

The TOMCAR is a military grade, commercial high-performance vehicle that was purpose built for military application, later developed as a virtually indestructible commercial and recreational vehicle constructed to go “ANYWHERE AND BACK™.”

Some of the current industries that are utilizing TOMCAR’s vehicles include: military and security sectors, mining, construction, agriculture and tourism. To learn more about TOMCAR, visit <http://tomcar.com>.
