**TOMCAR® Partners With Next Generation Power
to Provide “On-The-Go” Power Solutions**

Rochester Hills, MI – TOMCAR has joined forces with Next Generation Power to equip TOMCAR vehicles with state-of-the-art Next Gen diesel generators, compressors or combination units to provide customers with auxiliary power on the go.

TOMCAR is the acclaimed manufacturer of the highly capable TOMCAR® TM2, TM4 and TM5 off-road vehicles which are available with a choice of gas or diesel engines. Whether being used for military, forestry, mining, construction or agriculture, TOMCAR vehicles are known for getting the job done.

As a result of the partnership with Next Gen, a leader in ultra-compact power solutions, TOMCAR vehicles can now be outfitted with generators or combination units to provide customers with the auxiliary power they need in the field.

“The hallmark of TOMCAR is providing vehicles that are ready to work and have the flexibility to tackle any job,” said Tom McAlear, TOMCAR CEO. “Our partnership with Next Gen is an example of how TOMCAR delivers these solutions by providing clients with the customized power solutions they need while on the go.”

TOMCAR is a military grade, high-performance vehicle originally designed for military and border patrol use and now being produced as a virtually indestructible commercial and recreational vehicle, built to go “ANYWHERE AND BACK™”.

Based in Rochester Hills, Michigan, TOMCAR has additional operations in Arizona and Israel, as well as strategic partnerships in Australia, Canada, Spain and the United Kingdom.

TOMCAR vehicles are currently utilized in a variety of markets including: military, first responder, mining, construction, agriculture, tourism and recreation.

TOMCAR and Next Gen will exhibit together at The Work Truck Show to be held March 4 - 6, 2009 at the McCormick Center in Chicago. TOMCAR and Next Gen will feature a TM5 vehicle outfitted with a generator-welder-compressor combination from Next Gen.
