TOMCAR® Announces New Executive Vice President

Rochester Hills, MI – TOMCAR has named Jeff Zyburt its new Executive Vice President. Zyburt will be responsible for overseeing manufacturing, purchasing, quality and engineering.

TOMCAR Ltd., whose global headquarters is located in Rochester Hills, is the developer and manufacturer of the revolutionary high-performance, ready-for-anything TOMCAR® vehicles.

In his new role, Zyburt will also assist with batch engineering, ensuring that TOMCAR is delivering a vehicle that meets the unique needs of TOMCAR's fleet, military and tourism clients. Zyburt has expertise in flexible manufacturing, which will help TOMCAR fit the individual needs specific to their varied client base.

"I'm excited about the opportunity to work with such an awesome product," Zyburt said. "There is definitely a mystique about TOMCAR vehicles that is unlike anything else on the marketplace. My job one will be to help deliver on its promise of a durable, safe and reliable off-road vehicle."

Prior to joining TOMCAR, Zyburt worked most recently as an engineering and process development consultant. He has a proven track record for helping automotive and non-automotive businesses improve efficiencies. Zyburt brings more than 30 years of automotive experience to TOMCAR serving in several senior manager and director level positions with Chrysler.

The TOMCAR is a military grade, commercial high-performance vehicle that was purpose built for military application, later developed as a virtually indestructible commercial and recreational vehicle constructed to go "ANYWHERE AND BACK™."

Some of the current industries that are utilizing TOMCAR's vehicles include: military and security sectors, mining, construction, agriculture and tourism. To learn more about TOMCAR, visit <http://tomcar.com>.

###

TOMCAR® is the product of 33 years of experience building high-performance off-road vehicles for military and industrial clients who demand powerful and precise machinery that gets the job done without compromising safety.
